

Expertise You Can Trust

Auric Systems International — connecting merchants with processors since 1994. We have decades of experience with diverse databases, operating systems, languages, and development environments. Our developers build straightforward solutions to complex requirements.

All Auric applications are self-contained, with embedded relational databases and built-in communications utilities for the highest performance, reliability, and value.

Security for Sensitive Data

Auric follows Card Association recommended best practices for protecting customer account information. All Auric products include Payment Card industry (PCI) documentation. Our development practices follow the Visa U.S.A. Cardholder Information Security Programs (CISP). Trevance has been validated as meeting Visa's Payment Application Best Practices (PABP) to ensure your sensitive data is protected.

Simplicity

Implementing a new payment processing system can be daunting. Auric products are designed to reduce this complexity. Our products are simple to install, use, and maintain.

Our pricing is also simple to understand. Affordable up-front pricing with no hidden charges or extra implementation fees.

CUSTOM SOLUTIONS TO CUSTOM NEEDS

Auric Systems International provides custom solutions for every merchant's processing needs. Whether you need an enhanced version of an existing Auric application, a customized data entry utility, a unique connection between an existing system and an Auric product, or a fully custom solution, Auric Systems International builds quality software quickly and affordably.

- ▶ Gift-Card Applications
- ▶ Database Data Retrieval
- ▶ Data Entry Utilities
- ▶ Website Design and Integration
- ▶ Customized Auric Software
- ▶ Processor Platform Coding
- ▶ Custom File Transfer Routines
- ▶ Import/Export Utilities

PRODUCT	Trevance!® High-Speed	Trevance!® Batch Only	CN!Express® CX-6000
Versions	CN-4200	CN-3500	Autoprocessor/Single User
Chase Paymentech Platform	Direct	Direct	Orbital Gateway
Real-Time Authorization	30 Transactions Per Second		3 Seconds Per Transaction
Batch Size (Transactions)	200,000+	200,000+	100
Communication Method	Frame Relay, VPN	Frame Relay, VPN	HTTPS Internet
Price	\$19,000	\$4,900	\$699 / \$499

System Requirements

Trevance®:

CN-4200 High Speed:

OS: Microsoft Windows XP, 2000, or 2003 Server

RAM: 2 GBytes

CPU/HD: 2.5 GHz/30 GB

Recommend dual-processor

UPS: Recommended

CN-3500 Batch Only:

OS: Microsoft Windows XP, 2000, or 2003 Server

RAM: 1 GByte

CPU/HD: 1 GHz/30 GB

UPS: Recommended

CN!Express® CX6000:

AutoProcessor:

OS: Microsoft Windows XP, 2000, 2003, or NT4 Server

RAM: 256 MB

CPU/HD: 500 MHz/500 MB

UPS: Recommended

Single User:

OS: Microsoft Windows XP, 2000, 2003, 98, or NT4 Server

RAM: 256 MB

CPU/HD: 500 MHz/500 MB

UPS: Recommended
